REMARKS

In the Notice of Allowance mailed May 15, 2009, Claims 76-86 and 88-99 were allowed. Claims 1-75 and 87 have been previously cancelled without prejudice. Amendments to the claims in the Examiner's amendment accompanying the Notice of Allowance were authorized by the applicant's attorney in a telephone interview on May 5, 2009.

In this amendment after Notice of Allowance, the applicants have amended paragraph [001] of the specification to indicate that U.S. Application No. 10/371,877 has issued as U.S. Patent No. 7,449,308.

Replacement sheets replacing Figures 1A and 1B are provided. Figure 1A as shown on the annotated copy incorrectly showed the linkage of the outer mannose residues on the hypermannosylated *N*-glycan in the last step. This is believed to be an obvious error that would be readily apparent to a person skilled in the art. No substantive changes were made to Figure 1B; however, a replacement Figure 1B is included to keep the styles between Figures 1A and 1B consistent and to provide better copies of the drawings for the file. The replacement drawings are not believed to introduce new matter into the application.

The applicant respectfully requests the entry of this amendment under 37 C.F.R. 1.312. It is not believed the above amendments have introduced any new matter into the specification.
